

Anatomy Awareness in Asana

A Weeklong Class Series with Julie Gudmestad, a certified Iyengar Yoga teacher. Julie has been a practicing physical therapist for over 40 years. She runs a combined yoga studio and physical therapy practice in Portland, Oregon, as well as teaching workshops throughout the US, Canada, and Europe. Additionally, she wrote the Yoga Journal column, 'Anatomy of a Yogi' for several years.

July 30 - August 3, 2018

INSPIRE AND DEEPEN YOUR YOGA PRACTICE by studying anatomy with Julie Gudmestad. During this series will focus on one area at a time, starting by seeing and feeling bones, joints, and muscles. Then we will bring anatomy to life by practicing poses that strengthen and stretch the highlighted muscles. The asana practice will build from easy to more challenging poses. Everyone will be encouraged to work at their own pace, with ample time for questions. Anatomy can be fun!

We will:

- Use lecture, demonstration and asana practice to support your learning.
- Use and practice anatomical language, to help deepen your understanding of human movement patterns.
- Study how muscle imbalances can contribute to pain and disrupt the injury healing process.
- Suggest poses and sequences to help make progress with challenging poses.

.....
